## GREEN CODE OF BLAGAJEVA DEŽELA

1. The brand Blagajeva dežela, makes a promise to the visitors to keep on working by the principles of sustainable development.
2. We are aware of the impact tourism has on the local society and economy, which is why we actively include the locals and their businesses in our vision of tourism and guide them towards new connections and profit.
3. We encourage our business partners to follow the path of sustainable development.
4. We exhibit our responsible attitude towards the environment with the Slovenia Green certificate.
5. All visitors are invited to follow our example and act responsibly and respectfully towards the natural and social environment.
6. We use local materials and endorse the use of natural and recycled materials.
7. We strive towards reducing plastic waste and other materials that are difficult to decompose.
8. Natural resources in the destination are treasured. Keeping that in mind, we offer experiences that are attractive to smaller groups of visitors throughout the year.
9. We wish for our visitors to feel the biotic and abiotic diversity of the destination. It enables the development of agriculture, which also offers some interesting tourist experiences.
10. We support sustainable mobility.
